

# Chandan Mondal

## SAP ABAP & Front-end Developer

A highly motivated, self-taught developer with expertise in SAP ABAP and front-end development. Experienced in both back-end SAP technologies and modern web development frameworks. Strong problem-solving skills, a passion for learning new technologies, and the ability to work in collaborative environments.

## Work Experience

### Vertif it solutions (LLP)

#### Android App Developer

#### Emami Agrotech | Project

Aug 2024 - Sep 2024

- Developed an Android application using React Native CLI, focusing on performance and user experience.
- Integrated SAP OData APIs to enable seamless data exchange between the app and SAP backend systems.
- Designed and implemented mobile features that interact with SAP data in real-time, ensuring smooth functionality and optimal user experience.
- Utilized React Native for building cross-platform mobile applications with efficient state management and responsive UI.

#### SAP ABAP Developer

#### Tata Steel Project

Feb 2024 - Jul 2024

- DDIC Table Creation: Designed and implemented database tables in the Data Dictionary (DDIC) to support the project's functional requirements.
- Module Pool Program: Developed and customized a module pool program with a user-friendly layout for managing various business transactions.
- Smart Forms Layout Design: Created and optimized Smart Forms for dynamic printing and reporting purposes.
- T-Code Creation: Developed and implemented a custom transaction code for the module pool program, streamlining business operations.
- HTML Email Design: Designed and optimized HTML email templates within an SAP ABAP report to ensure clear and responsive communication for business processes.

### Freelance Developer (Fiverr)

#### Full-Stack Developer

Feb 2023 - Sep 2023

- Developed a full-stack web application using the MERN (MongoDB, Express, React, Node.js) stack for a fitness studio.
- Implemented payment integration using [payment gateway] to handle transactions securely.
- Designed and developed an admin panel for managing users, memberships, and payments.
- Deployed the project on Vercel, ensuring high performance and reliability.

## Educational Background

### Self-Taught Developer

- Completed courses in web and SAP ABAP development through online platforms.

### Bachelor of Arts

Kalyani University

Aug 2020 - Aug 2023
